

Responsible AI for Social Empowerment

(RAISE) 2020 is a global summit on Artificial Intelligence being organised by the Government of India from October 5–9, 2020. The summit will be inaugurated by the Prime Minister of India, Shri Narendra Modi on October 5, 2020 at 7 PM. The summit will have 40+ Sessions on contemporary topics on AI. It will have participation of AI experts, domain experts, practitioners, policy makers, thought leaders, research scholars, start-ups, and young minds across the globe.

Day 2: October 6

Time: 07:00 PM – 09:00 PM

Session: "Bridging communications and linguistic barriers with voice enabled AI"

Session Description: Natural Language Processing is a subfield of AI that aims to bridge the divide between the languages that humans and computers use to operate. In India's context, the session will discuss the roadmap of bringing the diversity of its linguistic wealth into the technical realm and could greatly broaden online access to a wider share of India's population.

Programme	Speakers
